Executive Summary

- ✓ PMO Director and Strategic lead with 15+ years of architecting and spearheading multi-million-dollar Digital Transformation and Cloud Migration initiatives for global enterprise leaders in Japan
- ✓ Established an Enterprise PMO Center of Excellence (CoE) at Renesas Electronics, institutionalizing governance frameworks and operational excellence to drive delivery maturity across complex M&A integrations.
- ✓ Directed a portfolio of high-concurrency enterprise applications at Rakuten, managing 8,000+ users with <150ms latency and delivering 32M+ JPY in annual profit through strategic infrastructure optimization.
- ✓ Led a \$25M Digital Transformation Program for a major insurance tech platform, delivering an ROI exceeding 8% and achieving comprehensive client satisfaction through end-to-end AWS cloud architecture.
- ✓ Co-founded a high-growth ERP start-up, driving a 15% increase in revenue and 2x faster turnaround time through strategic product ownership and a keen focus on customer-centric business models.

Core Competencies / Skills

Strategic Leadership: PMO Center of Excellence Establishment, M&A Integration Governance & Strategy, Operational Excellence, Executive Stakeholder Engagement, Governance Frameworks, JAPAC Market Strategy.

Technical Program Management: Large-Scale Cloud Migration (AWS/Hybrid), Infrastructure Scalability, Portfolio Risk & Dependency Management, End-to-End Delivery Lifecycle, SaaS/PaaS Governance.

Digital Transformation: Enterprise Application Architecture, High-Concurrency systems (<150ms Latency), Data-Driven Performance Optimization, Global Service Delivery, Systems Interoperability.

Operational Maturity: Agile/Hybrid Methodologies, Process Innovation & Automation, Budgetary Oversight (\$25M+), ROI & Value Realization, Cross-Functional Team Leadership.

Experience

Senior Manager / PMO Director

Jan 2025 to Present

Renesas Electronics Corporation, Tokyo, Japan

- Architected and led the establishment of a PMO Center of Excellence (CoE), institutionalizing a comprehensive enterprise-wide project management framework that directly drove organizational delivery maturity and consistency across complex programs, including M&A integrations.
- Served as a strategic partner to senior leadership, ensuring large-scale technology programs remained aligned with global business objectives and compliance standards.
- Directed end-to-end IT project management for complex M&A integrations, ensuring seamless system transitions, on-time delivery, and strong business alignment post-acquisition.
- Developed and executed strategic plans, managed cross-functional teams, and maintained strong stakeholder engagement to deliver programs & projects on-time and within budget.

Senior Program Manager (PMO & Project Design)

Aug 2020 to Dec 2024

Rakuten Group Inc, Tokyo, Japan

- Directed the full project lifecycle for a portfolio of mission-critical enterprise applications supporting 8,000+ concurrent users, resulting in 32M+ JPY in annual profit via infrastructure optimizations.
- Owned the execution strategy for high-visibility programs, from conceptual business case development through global deployment and performance tracking.
- Managed a distributed team of Product Managers and technical experts, ensuring delivery excellence within an Agile/Hybrid framework.

Senior Manager – Technology (IT Strategy & Service Delivery)

Nov 2018 to Jun 2020

Synechron Technologies Japan, Tokyo, Japan | Client: Asurion Japan

- Led a \$25M Digital Transformation and Cloud Migration Program for a major insurance tech platform, delivering an ROI exceeding 8% through capital expense reduction.
- Functioned as a Chief of Service Delivery, outlining the strategic plans and controlling budgets/resources for a 30+ member global team.

Manager – Technology (Product Portfolio Management)

Nov 2017 to Oct 2018

Synechron Technologies India, Bengaluru, India | Client: Wells Fargo

- Instrumental in establishing an IT Products Security Compliance Center of Excellence (CoE) for the entire bank's IT Operations, focusing on managing security and vulnerability across all software applications and IT Infrastructure.
- Innovated and prototyped an automated solution (using web crawling/scripting) that reduced time consumption by over 85% and achieved a 90% output accuracy for compliance process.

Director | Co-Founder

Apr 2015 to Oct 2017

Y2K2 Content Management Solutions Pvt. Ltd, Chennai, India

- As Co-Founder and Technology Head, developed a logistics ERP product focused on Fleet Management and Vehicle Tracking solutions.
- Drove tangible business improvement for customers by leveraging the ERP's Data Analytics & Intelligent Reporting features to increase productivity and reduce costs.
- Achieved significant business results: 15% average revenue increase, 25% active customer conversion, and a 2x faster turnaround time within the first quarter of deployment.

Entrepreneurial Activities

Mar 2011 to Mar 2015

Independent Consultant, Chennai, India

- Organized, structured, and invested in bringing a technology startup to life, focusing on IT Infrastructure, Enterprise ERP Development, Content Management, and Knowledge Processing services.

Database Administrator

Oct 2010 to Dec 2010

Meritech Co., Ltd, Tokyo, Japan | Client: Nokia Siemens Networks

- Represented the offshore team as Onsite coordinator, successfully deploying and delivering a major telecom monitoring tool for a leading Japanese mobile network operator.

Senior Technical Support Executive

Jun 2005 to Aug 2006

Sutherland Global Services, Chennai, India | Client: Microsoft Corporation

- Served as a senior escalation and research engineer, providing technical support for Microsoft Windows XP to US and Canadian customers.

Certifications & Credentials

- ✓ **PMP** Project Management Professional
- ✓ **PRINCE2** Foundation Certificate in Project Management
- ✓ **Agile Scrum Master**
- ✓ **ITIL v3** Foundation Certificate in IT Service Management
- ✓ Six Sigma Green Belt
- ✓ Certified Marketing Strategy Associate (SCMS-A) & Digital Marketing Associate (SCDM-A)
- ✓ RPA Developer Foundation Diploma from UiPath
- ✓ Microsoft Certified Professional (70-271)

Education

Master of Science (M.S) | Waseda University, Tokyo, Japan

- Major: Global Information and Telecommunication Studies (Research in Wireless Acoustic Sensor Networks).
- Authored and presented a technical paper at IEICE International Conference at Osaka Prefecture University, Japan.

Professional Leadership & Recognition

- **Industry Thought Leadership:** Invited as Chief Guest & Keynote Speaker for a National Conference at R.M.K Engineering College (2016)
- **Academic Excellence:** Honored as 'Distinguished Alumnus of the IT Department' for professional success and contributions to the field (2025)

Strategic Project Portfolio

Project: SpaceStudio | Facility Management System

Organization: Rakuten Group | Role: Senior Program Manager | Budget: \$15M – \$25M

Scale: 14 Cross-functional members | Method: Agile | Duration: 12 Months

Strategic Objective: Engineered a proprietary 2D layout booking system to replace high-cost third-party facility management tools across global offices.

Business Impact: Eliminated 3rd party licenses, saving ¥31.78M annually. Successfully scaled the system to handle 8,000+ concurrent user logins with high availability.

Leadership: Directed end-to-end delivery of Phase 1, managing a distributed team of 14 professionals across Japan and India to ensure seamless global rollout.

Project: Horizon | AWS Cloud Transformation

Organization: Synechron Japan | Role: Senior Manager (Service Delivery) | Budget: \$25M+

Scale: 30+ Global members | Method: Hybrid | Duration: 18 Months

Strategic Objective: Directed the legacy-to-cloud migration of an insurance tech platform for two major Japanese mobile telecom operators.

Business Impact: Achieved an ROI exceeding 8% through capital expense reduction. Engineered a cloud-native architecture supporting 3,000+ concurrent user sessions.

Leadership: Managed a multi-national team of 30+ experts, overseeing budget, resource allocation, and DevOps infrastructure management to meet strict regulatory compliance.

Project: EnrollMe | Health Event Management

Organization: Rakuten Group | Role: Senior Program Manager | Budget: \$1M

Scale: 9 Product/Tech members | Method: Agile | Duration: 11 Months

Strategic Objective: Developed a custom COVID-19 vaccination and corporate health event management system to automate manual scheduling.

Business Impact: Reduced event creation time from 5.5 days to 30 minutes. Generated a projected annual cost reduction of ¥5.2M and earned direct profit of ¥217k per event.

Leadership: Led the full product lifecycle, prioritizing features that maximized administrative efficiency and user data privacy.

Project: Energy Tracker | Sustainability Data Platform

Organization: Rakuten Group | Role: Senior Program Manager | Budget: \$1M

Scale: 9 Product/Tech members | Method: Hybrid | Duration: 8 Months

Strategic Objective: Developed a data-driven application to centralize energy consumption management across global facilities for sustainability reporting.

Business Impact: Enabled real-time calculation and filtering of energy use data, directly supporting Corporate ESG and sustainability goals.

Leadership: Directed a cross-functional team to deliver a centralized reporting engine, allowing stakeholders to make data-backed facility management decisions.
